**Subject:** re gift cards.

I totally don't get why there should be any expiry date on gift cards, especially cards with a pin number to be used as cash payment for eg Woolworths group etc. why should money expire? Seems crazy to me. I have forfeited several of these thro failure to read the fine print or phone up to find expiry date etc; would love to see a change. If I give someone a voucher for \$50 I would like to think they can spend it whenever they please. Many thanks for considering.
