## **ROYAL AUSTRALIAN MINT**

## Section 1: Agency overview and resources

#### 1.1 STRATEGIC DIRECTION STATEMENT

The Royal Australian Mint (the Mint) is a prescribed agency operating under the *Financial Management and Accountability Act* 1997. The Mint's vision is to achieve excellence as a sustainable world class Mint. Its goal is to meet the circulating coin and collector coin needs of Australia and selected international markets. The Mint is also the custodian of Australia's National Coin Collection and provides educational and tourist services to local and overseas residents.

Over the next three years, the Mint's key strategies include:

- further development of in-house capability;
- improve relationships with suppliers and ensure customer expectations are met by delivering quality products in-full and on-time;
- continue to recognise and demonstrate the importance of staff;
- maintain workplace health and safety, and environmental conditions; and
- continue to build brand recognition.

As the sole supplier of Australia's circulating coin requirements, the Mint is responsible for the continuous review of Australian coinage and for providing advice to the Treasury and the Government on coin related issues.

In 2014-15, the Mint will continue to target revenue growth opportunities for both numismatic and international circulating coin, particularly in the Pacific and neighbouring countries.

To ensure that Commonwealth resources are appropriately deployed, the Mint will implement the lean philosophy across the organisation to improve its operational efficiency and drive improvement. To deliver a safe and secure environment, the Mint will continue to invest in health and safety for its employees and maintain a high level of security.

The Mint will increase engagement with its employees to empower and motivate staff, invest in health and wellbeing activities, and conduct mentoring and leadership programmes.

## 1.2 AGENCY RESOURCE STATEMENT

Table 1.1 shows the total resources for the Mint.

Table 1.1: Royal Australian Mint resource statement — Budget estimates for 2014-15 as at Budget May 2014

## 1.3 BUDGET MEASURES

The Mint does not have any budget measures for 2014-15.

## Section 2: Outcomes and planned performance

## 2.1 OUTCOMES AND PERFORMANCE INFORMATION

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programmes are the primary vehicle by which government agencies achieve the intended results of their outcome statements. Agencies are required to identify the programmes which contribute to Government outcomes over the budget and forward years.

The Mint's outcome is described below, specifying the strategy, programme objective, programme deliverables and programme key performance indicators used to assess and monitor the performance of the Mint.

Outcome 1: The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products

## Outcome 1 strategy

To achieve this outcome the Mint will continue to:

- produce cost efficient circulating coins for Australia;
- produce appropriate circulating coins for foreign jurisdictions under commercial arrangements;
- · maintain an appropriate level of Australian circulating coin;
- provide advice to the Treasury and Government on coin related issues; and
- · develop and produce high quality profitable numismatic products.

As the sole producer of Australian circulating coin and custodian of the National Coin Collection, the following activities are an adjunct to the key strategies outlined above:

- delivering an education programme through the Mint's visitors centre;
- promoting public understanding of the cultural and historical significance of coins;
   and
- maintaining Australia's National Coin Collection.

## **Outcome expense statement**

Table 2.1 provides an overview of the total expenses for Outcome 1.

Table 2.1: Budgeted expenses and resources for Outcome 1

#### **Contributions to Outcome 1**

## **Programme 1.1: Royal Australian Mint**

## Programme objective

To produce and distribute circulating coins, collector coins and minted like products to meet the demands of the Australian economy, collectors and foreign countries.

## Programme expenses

The costs of production, warehousing and distribution of minted circulating coin are dependent on the demand for circulating coin by Australian commercial banks and foreign jurisdictions whilst costs for numismatic products are driven by orders received from collectors.

**Table 2.2 Programme expenses** 

	2013-14		2015-16	2016-17	2017-18
	Revised	2014-15	Forward	Forward	Forward

Total program expenses	150,439	124,090	122,718	124,582	125,503

#### Programme deliverables

The Mint has the following deliverables:

- produce Australian circulating coins to meet the demands of the Australian community;
- maintain minted Australian circulating coin inventory;
- produce circulating coins to meet demand from foreign countries;
- produce numismatic products to meet Australian and overseas demand;
- maintain Australia's National Coin Collection;
- maintain the Mint's visitor gallery, including building and surrounds;
- provide an educational programme to school students who visit the Mint; and
- promote public understanding about the cultural and historical significance of coins.

#### Programme key performance indicators

The Mint has the following key performance indicators:

- produce and deliver Australian circulating coins in a cost effective and timely manner;
- foreign circulating coin sales meet or exceed cost of production;
- all numismatic sales meet or exceed cost of production;
- at least 95 per cent of numismatic orders placed are produced and delivered within contracted delivery time;
- rotate the display of Australia's National Coin Collection on a regular basis;
- maintenance of gallery and visitor centre to community standard;
- ensure that school student visitor programmes align with relevant school curricula;
   and
- increase in visitor numbers to the gallery and visitor centre compared to prior year's actual visitor numbers.

# Section 3: Explanatory tables and budgeted financial statements

Section 3 presents explanatory tables and budgeted financial statements which provide a comprehensive snapshot of agency finances for the 2014-15 budget year. It explains how budget plans are incorporated into the financial statements and provides further details of the reconciliation between appropriations and programme expenses, movements in administered funds, special accounts and government Indigenous expenditure.

## 3.1 EXPLANATORY TABLES

#### 3.1.1 Movement of administered funds between years

The Mint does not have any movement of administered funds.

## 3.1.2 Special accounts

Special accounts provide a means to set aside and record amounts used for specified purposes. Special accounts can be created by a Finance Minister's Determination under the *Financial Management and Accountability Act* 1997 or under separate enabling legislation. Table 3.1.2 shows the expected additions (receipts) and reductions (payments) for each account used by the Mint.

Table 3.1.2: Estimates of special account cash flows and balances

		Opening				Closing
		balance	Receipts	Payments	Adjustments	balance
		2014-15	2014-15	2014-15	2014-15	2014-15

Total special accounts						
2013-14 estimate actual		41,615	229,148	227,870	-	42,893

<sup>1.</sup> This special account was abolished during 2013-14.

## 3.1.3 Australian Government Indigenous expenditure

The Mint does not have any Australian Government Indigenous expenditure.

## 3.2 BUDGETED FINANCIAL STATEMENTS

## 3.2.1 Differences in agency resourcing and financial statements

The Mint does not have any material differences between agency resourcing and financial statements.

## 3.2.2 Analysis of budgeted financial statements

There is a minor decrease in the anticipated operating results in 2014-15 compared to 2013-14 due to the Mint's investment in additional capability and capacity.

There is an increase in the estimated cash balances in the Mint's budgeted departmental statement of cash flows. This movement is due to a greater increase in receipts from supply of goods and services compared to expenditure.

## 3.2.3 Budgeted financial statements tables

Prepared on Australian Accounting Standards basis.

## Table 3.2.10: Schedule of administered capital budget

The Mint has no administered capital budget.

#### Table 3.2.11: Schedule of asset movements — administered

The Mint has no administered asset movements.

#### 3.2.4 Notes to the financial statements

## **Departmental**

#### Basis of accounting

The Mint's budgeted statements have been prepared on an accrual basis, in accordance with the historical cost convention except for some assets and liabilities that are at valuation and in accordance with:

- · the Australian Government's financial budgeting and reporting framework; and
- Australian Accounting Standards.

#### **Budgeted departmental income statement**

#### Revenues

Revenue is derived from the production of circulating coins, the sale of numismatic coins and coin like products. The amount of revenue earned in any one-year is dependent upon the demand for such products by the Australian financial institutions and the coin collecting market.

#### **Expenses**

#### **Employees**

This includes wages and salaries, superannuation, provision for annual leave and long service leave.

#### Depreciation and amortisation

Depreciable assets are written off over their estimated useful lives, using the straight-line method.

#### Other

Other expenses include the cost of goods sold.

#### **Budgeted departmental balance sheet**

#### Non-financial assets

#### Inventory

Inventories held for resale are at the lower of cost and net realisable value. Work in progress and finished goods are brought to account to include direct costs and a

portion of direct labour and overhead. All precious metals are purchased and brought to account at cost.

## **Provisions and payables**

#### **Employees**

The liability for employee entitlements includes provision for annual leave and long service leave. No provision has been made for sick leave, as all sick leave is non-vesting.

The non-current portion of the liability for long service leave is recognised and measured at the present value of the estimated future cash flows in respect of all employees.

#### Asset valuation

Commonwealth Government agencies are required to value property, plant and equipment and other infrastructure assets using the fair value method of valuation.

#### Administered

Seigniorage is collected by the Mint on behalf of the Commonwealth Government. Seigniorage represents the difference between the face value of the coinage sold to the Australian financial institutions and its cost of production to the Mint. Seigniorage is treated as an administered item within the Mint's administered budget statements.
