Dear Sir/ Madam

**Living Away From Home Allowance Consultation**

My daughter is moving to Australia with a Temporary 2 Year Visa to work in a priority area and has already been offered employment. She intends to rent accommodation in Sydney. She understood that she would be eligible for LAFHA to help defray the considerable expenses incurred moving to Australia. If the proposed changes take place in July it appears that she will no longer be eligible which will cause her to reconsider her move as she will find it more difficult to afford.

Please will you reconsider the proposed changes relating to people in her situation.

Yours faithfully

Tim Cotton
