

To whom it may concern,

More should be done to identify the problems with the current system and implement practical solutions, then a "one-size-fits-all" blanket dead-stop of the crucial benefit LAFHA brings to many foreign individuals and their families, who are here to make Australia great!

It's obvious a minor percentage is abusing the system and their actions will have negative repercussions on us all. Perhaps a phased/progressive decrease? Or better accounting/proof of accommodation and cost of living...at least give people the opportunity to make informed decisions about their future!

Show the world you're about the "working man" and implement logical, practical and specific tools to address the problems, as opposed to absolute cancellation.

May God bless your decision!

Regards
