

Hello Members of the Treasury,

I am writing to request an extension of LAFHA to those beneficiaries currently relying on the program as a key means to life in Australia. I moved to Australia one year ago to help an Australian IT company. LAFHA was a key component to my decision and one that has allowed me to relocate then stay for what I hope to be the full 4 years on my 457 Visa. Without LAFHA I will be forced to explore my options in other, less expensive countries.

Please do not penalize those of us who rely so heavily on LAFHA. It is very important!!

Best Regards,

Austin Ullery
