Subject: Enquiry into Environmental Charity Groups
Date: Thursday, 22 June 2017 1:42:36 PM

It is clear to me that certain Environmental groups (just watch the TV to find out?) engage in illegal activities against businesses conducting their legitimate activities. Any group doing so should be penalised. These offenders seem to come up repeatedly and significant penalties are seldom if ever applied. They should be but in their absence than at least the Government should remove their charitable for tax purposes status
