

Dear Sir

I wanted to express my despair at the above reforms with no transition period for overseas workers. I am from the UK, pay for children to be in school, higher tax already etc. In addition to this I am committed to a house rental.

Can I appeal to your sense of fair play to provide a transition period of some sort for those who have come to Australia in good faith expecting the LAFHA as part of their decision.

Many Thanks  
Kris Meijer
