## Explanation of items

Product Name	
Target net investment return	<p>A per annum estimate of the expected return after investment and administration fees, costs and taxes, excluding activity and insurance fees and costs in excess of CPI over 10 years.</p> <p>Investment and administration fees, costs and taxes, activity and insurance fees and costs are defined in APRA's reporting standards.</p>
Net return performance	<p>A graphical representation of the annual net return for each year of the last ten years. The chart must also show a line plotting the 10 year moving average return that was achieved and a line plotting the realised value of the 10 year moving average return target using realised CPI for the relevant years.</p> <p>Net return target and net return are to be measured after investment and administration fees, costs and taxes, excluding activity and insurance fees and costs.</p> <p>Where a product has less than 10 years' investment history, each annual return must be displayed but no moving average return can be displayed until there is ten years of data.</p> <p>Investment and administration fees, costs and taxes and activity fees and costs are defined in APRA's reporting standards.</p>
Investment risk	<p>Negative returns expected in [x] out of every 20 years.</p> <p>This is to be calculated consistent with the guidelines provided in the <i>ASFA/FSC Guidance on Standard Risk Measure</i></p>
Measure of fees and other costs	<p>Annual investment and administration fees, costs and taxes reported as whole dollars, excluding activity and insurance fees and costs, for a member with \$50,000 balance and \$5,000 in contributions.</p> <p>Investment and administration fees, costs and taxes and activity fees and costs are defined in APRA's reporting standards</p>
