---

Dear Sir/Mme,

Briefly, attack those who have degraded the environment, (mining companies, cotton-farmers, tree-fellers etc) for the funding of rehabilitation of the results of their rip-offs. The ordinary citizens have been conned for decades. Your problem is that there is really no money left at the bottom (Read: the bottom 95 per cent) echelons of society. Please give us the right to fight for our future while the culprits rehabilitate their own wastelands.

Think about it!

I trust you t see the light.

Sincerely,

Anne
