Dear Sir or Madam

RE: National Flood Insurance Review – Reforming Flood Insurance

The Western Australia State Emergency Management Committee (SEMC) met on the 13th March 2012 and endorsed “In Principle” support to the reform concept.

In regards to feedback, a number of stakeholders expressed concern with the proposed definition of flood which was seen as too generic and should be further defined.

Thank you for the opportunity to provide feedback and comments on this proposal.

Yours faithfully

**DARRYL OTT
EXECUTIVE OFFICER
