To whom It May Concern,

I don't have a computer to look up your file, but according to my daughter I must agree to your model to!

Which I mean I live near a 100 year flood plain which is close to the Swan river.

We have a designated Wetlands at our back fence, but we were granted permission to build provided that we back filled and thoroughly hooked our block up 6' feet or so, which we did.

I have been told by a couple of Home Insurance customers they wouldn't give us Insurance.

I agree that Insurance should be everything if you chose to insure against flood.

I also agree that Flood Insurance should (and fire insurance) not be levied

if you live miles from water or
in the case of fire - miles from a
lush ~~open~~ site.

Hoping this is enough to count
towards Natural Disaster Insurance
Review.

Yours Truly
