

I am a 79 years old pensioner.

During last 7 years I have had time to take an interest in politics and realised that my education was flawed by believing that in any conflict we were the goodies not the baddies. i.e. I have sang at church "Onward Christian Soldiers" etc thinking that our goodies were saving Jerusalem from the Saracens. I did not know the truth of the Goodies murdering and butchering and the same is happening and has happened with the Goodies in banking where the governments of either Labor or Liberal favour unsafe (speculating and are T.B.T.F and T.B.T.G). The current world's (western) financial crisis has been caused by uncontrolled banking that led to the 1929 crash. What has been done about this since 1929?

- 1) President Roosevelt introduced the Glass-Steigal act and the Pecora investigations.
- 2) By 1940, America's economy rose from the great depression of 1929 to be arguably the greatest and strongest economy in the world, allowing it to spearhead and lead the allies to victory.
- 3) Australian owned Commonwealth Bank completely funded our war commitments
- 4) Constant chipping away by investment bank lobbyist has brought us to the edge of another serious depression which is perceived to be worse than 1929 and certainly worse than our last one in 2007. In fact, it is estimated that two quadrillion dollars are owed to the investment banks through derivative exposure.
- 5) Already in America the City of Detroit has defaulted with Wall Street loans and worker's pensions etc are at risk to pay back the banker's loans which the city bought sub-prime investments and these other bad investments from Wall Street.
- 6) In Australia, we see currently actions against the private and Commonwealth Bank and Macquarie Bank by small business investors against faulty and perhaps illegal loans and advice.
- 7) The objective aim of this financial inquiry seems to be to regiment all G20 governments to legislate for a bail-in policy to finance the gambling by investment banks during the next G20 summit meeting in Australia later this year. This bail-in is part of the European policy to recapitalise their banks and save the T.B.T.F and T.B.T.G.
- 8) Surely, what has been done in the ECC and America as listed in the list of countries affected
 - a) Cyprus
 - b) Greece
 - c) Spain
 - d) Ireland
 - e) Portugal
 - f) America
 - g) and others to come is surely a crime against humanity.
 - h) Pope Francis has spoken out against the bail-in policy. It was Jesus Christ that stated in the bible that money is the root of all evil. It is so obvious that, in western society, that is so true.
