To whom it may concern, I would like to make this submission, I am 100% in favour of the Glass Steagle solution to proposed "bail in alternative". Glass Steagle separation of commercial banking from speculative ("gambling") banking works, its a no brainer! Bail out never worked, bail in wont work, why should depositors be held liable for incompetent speculative bankers a lot of who should be doing jail time. The financial system needs competent re-regulation Glass Steagle will provide that, just as it did for over 50 years in the USA. Its repeal in 99 by Clinton (under immense pressure from the bankers) released them to create havoc on economies of the world.  
Glass Steagle Works!!!

Thank you  
for the chance to give my view.  
Yours Sincerely  
Sharon Smith
