

# Programs under consideration for inclusion in the Initial Published List of Eligible Programs

The following SRWUIP Programs are under consideration for listing in respect of Commonwealth payments made on or after 1 April 2010.

SRWUIP payment recipients should consult their project documentation to determine whether their payment was received as a participant in a project under one of the following SRWUIP programs.

| Programs under the Sustainable Rural Water Use and Infrastructure Program     | Description of Program  |
|---|---|
| New South Wales Private Irrigation Infrastructure Operators Program — Round 2 | A Commonwealth-led State Priority Project under the Agreement for Murray-Darling Basin Reform of July 2008. This Program is aimed at improving scheme efficiencies including channel configuration, channel upgrades, on-farm upgrades and rationalisation for NSW Irrigation Infrastructure Operators. |
| Commonwealth On Farm Irrigation Efficiency Program — Round 3                  | A Commonwealth-led on-farm program targeted at improving the efficiency and productivity of on-farm water use and management in the Lachlan and southern-connected Murray Darling Basin, and to assist communities to adjust to a future with less water.   |
| Northern Victoria Irrigation Renewal Program — On Farm                        | Part of the NVIRP2 package which is a State Priority Project under the Agreement for Murray-Darling Basin Reform of July 2008. The NVIRP2 on-farm initiative is a three year project which will deliver farm irrigation system upgrades to the Goulburn Murray Irrigation District.                     |
| New South Wales — Sustaining the Basin Irrigated Farm Modernisation Program   | A State Priority Project under the Agreement for Murray-Darling Basin Reform of July 2008. This NSW government led on farm program aims to increase the water use efficiency of irrigated agriculture in regulated catchments in the NSW Murray-Darling Basin.  |
