Subject: Computer software

General Manager
Business Tax Division
The Treasury
Langton Crescent
PARKES ACT 2600

I wish to put my concerns about the proposed changes to the law in relation with R&D and computer software.

As a company manager that does considerable R&D in industry that includes computer software, these proposed laws are frightening. Depending how these proposals come into effect it may have enormous consequences to this company.

I also believe that many software companies that I know could also be dramatically affected.

Regards,
Bernard Zimmermann.
