To: Unit Pricing Review

Hi, I am a low income family and unit pricing help me with the groceries to shop for my family of 5. Anyone who has kids knows how much kids eat and how expensive it is to keep up with their needs and give them the odd luxury want is music lessons. Plus I'm coeliac and buying gluten free food has made our grocery bill sky rocket. So the being able to see the best deal for your money is great, buy bulk and put in containers or freeze.

Regard kelli
