DEPARTMENT OF THE TREASURY

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Treasury is the pre-eminent economic adviser to the Government. The Treasury's purpose is to support and implement informed decisions on policies for the good of the Australian people, consistent with achieving strong, sustainable economic growth and fiscal settings.

Our work includes promoting a sound economic environment, effective Government spending arrangements and regulations, well-functioning markets to serve consumers and investors, and sustainable taxation and revenue arrangements.

The Treasury achieves this through providing policy advice, analysis and the delivery of economic policies and programs, including legislation and administrative payments which support the effective management of the Australian economy.

Our priorities to achieve this over 2021-22 include:

- continuing to support the Government to design and deliver the COVID-19 response and the Economic Recovery Plan
- delivering the 2022-23 Budget, the Mid-Year Economic and Fiscal Outlook and any other economic updates as required by Government
- promoting a stronger, more sustainable tax system in line with Government priorities
- delivering the next Intergenerational Report that will assess the long term sustainability of current Government policies over the next 40 years
- ensuring payments to the States and Territories are timely and accurate
- implementing reforms to Australia's foreign investment review framework
- strengthening Australia's financial system and promoting sound corporate and consumer regulation in line with Government priorities
- delivering measures focused on supporting small to medium business, the digital economy and reducing the regulatory burden on business
- increasing choice, control, transparency and competition for Australia's consumers
- continuing to improve our governance across the Treasury portfolio.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the Treasury for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Prepared on a Government Finance Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

(a) This measure has been reflected in Treasury's Table 1.2 to provide consistency with Budget Paper 2. The measure has been provisioned for Treasury in the Contingency Reserve, as funding will be contingent on the States and Territories agreeing to a robust reform timeline focused on increasing participation and school readiness. Treasury will not be appropriated the funding amount until the negotiations have been finalised, therefore has not been reflected in any other tables in the Treasury Portfolio Budget Statements.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Treasury's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the Treasury can be found at: (<https://corporate-plan.treasury.gov.au/>).

The most recent annual performance statement can be found at: (<https://treasury.gov.au/publication>).

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Supporting and implementing informed decisions on policies for the good of the Australian people, including for achieving strong, sustainable economic growth, through the provision of advice to Treasury Ministers and the efficient administration of Treasury's functions.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

The entity resource statement is prepared on a cash basis and provides a view of cash/appropriations resources available to the Treasury whilst the financial statements are prepared on an accrual basis.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The Treasury is budgeting for a break-even operating result, after non-appropriated expenses such as depreciation are removed, in 2021-22 and over the forward estimates.

The Treasury has a sound financial position and has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

- (a) From 2010-11, the Government introduced the net cash appropriation arrangement that provided non-corporate Commonwealth entities with a separate Departmental Capital Budget (DCB) under Appropriation Act (No.1) or Bill (No. 3). This replaced revenue appropriations provided under Appropriation Act (No.1) or Bill (No.3) used for depreciation/amortisation expenses. For information regarding DCB, refer to Table 3.5 Departmental Capital Budget Statement.
- (b) Applies to leases under AASB 16 Leases.
