

Submission to Regional Banking Taskforce

I hereby request that the members of the Regional Banking Taskforce please recommend the formation of a Postal Bank in Australia .

As a retired farmer from a district where all bank branches have closed their doors, I have experienced the inconvenience of having to

drive fifty kilometres or more to conduct banking business.

Numerous country towns where the bank branches are closed, have a Post Office that could fill this void left by the major banks.

Please give this matter your earnest consideration .

Yours faithfully

Ken Heinrich
