

## Bank closures

6th December 2021

To whom it may concern,

We express our dismay and disappointment at the closure of the Commonwealth Bank, 239 Main Road, Blackwood, South Australia. 5051.

Our main investments and transactions have been with this bank for many years, as well as help from our financial adviser, David [REDACTED]

The federal government does not appear to take into account the problems older persons (we are 80 & 81 years) encounter coping with technology movements in the world today. We do our best but are grateful for the courtesy and help received from the staff at the above bank. Many older persons in our suburb are also upset about the closure and the necessity to travel further distances to conduct future business.

At present, we also use other banks, and hope they will remain in our neighbourhood.

Thank you, Roger and Merrilyn Hughes
