

## Bank Closures

The closing of all the banks at The Entrance and now at least one at Bateau Bay is alarming and quite unnecessary.

I am over 80 and have been with NAB for many years and now with their closure of Bateau Bay, it now means I have to travel even further to use my passbook and withdraw monies.

It is very obvious that their Shareholders rank No 1 and older loyal customers like myself run a distant last unfortunately their current attitude is unlikely to change and that money is more important than morality and doing the right thing.

Certainly they are in business to make a profit{and they sure do that every year} but good business is based on good ethical standards but not. apparently at NAB - they deserve to lose business because of their attitude and feel sure that will happen.
