

Regional banking

Hi

I would like to inform you that the final bank that is the National bank in Mooroopna is closing on the 24 th of December we will now have no bank in town . Mooroopna has a population of 8000 people and no bank this is not good enough, Australia Post must be given a licence to be the bank in our country towns across Australia . Country people are the back bone of this country and are being treated very poorly by the major banks . I could go on and on the Elderly and most people over 40 years of age don't do internet banking Cheers Terry
