

Postal bank

Regional Banking Taskforce

I am writing to give my support for the creation of a postal bank. Please see below, my comments:

- Guarantee banking services for communities
- Guarantee against debanking discrimination
- Commonwealth Government Guaranteed deposit security, NO BAIL-IN's
- Support for cash and cash payments, as I believe this is a crime on the people by the banks to force us into the PRIVATE banking system
- Surplus deposits could be used for the economic development of Australia
- Break the monopoly of the big four banks, including their power over Australian politics

This country of ours is the greatest in the world, but it's going astray, you public servants are entrusted to protect us all, including yourselves and your children. Here is your chance to make a real impact for our country.

Kind regards

Joseph Mazza
