

**regional banking inquiry.**

M J O'Riordan

Dear sir.

Please note that I am of the opinion that a postal banking licences should be granted to the post office.

The main banks are no longer giving a service to the general public, closing branches in the rural area including the city areas, even trying to find a working a ATM is impossible and if you do there is a charge withdrawal .

whereas the bank still operating ,no charge for cash withdrawal .

The post office is able to meet my needs and obviously there are more branches especial in the rural area.

Regards M J O'RIORDAN.
