

Post Office Bank

To Regional Banking Taskforce , Secretariat,  
Senators.

I'm concerned that banks are withdrawing their services in many country towns, probably placing declining profits before people. Even though I live in Moreton Bay Regional Council, my local nab branch has vacated a building in Strathpine so it's happened near Brisbane.

What I need you to realise is that the establishment of an Australian bank is **essential** particularly for people in country areas. Also to benefit, are those (particularly the elderly) in well populated areas who don't have access to their bank branch but could visit a post office. This would be more convenient for the helpers, carers, relatives of the elderly, and those without transport. THESE CARERS etc, VOTE FOR YOU ALL AND SO DO I !!

Therefore I implore all concerned to vote for, nay legislate the establishment of a PEOPLE'S BANK obviously through the chain of post offices both privately and Aust Post owned. I may be contacted on the details below.

Thank You  
Gary Pedler
