Subject: Well being

Dear Treasury,

Read "The Spirit Level" and other research that has changed economic thinking since Margaret Thatcher and Ronald Regan determined that free-market selfishness should rein.

We need to level the excesses of wealth accumulation at the rich end of the spectrum. We need inheritance taxes, super profits taxes on mining, gas and resource rent seekers, capital gains taxed at their previous standard rates, public funding ended to private businesses like schools and hospitals etc.

Yours Faithfully

Brenton White
