

Dear Director,

Thank you for the opportunity to submit my response to the consultation on the proposed legislation.

We strongly object to the proposed legislation changes.

At the previous election there was a resounding rejection of the Labor party intent to remove franking credits that I believe caused the Bill Shorten government to lose the election.

In the lead up to the last election the questions were asked and promises were made regarding franking credits. It would appear to us that the new legislation is just another method of attacking franking credits and not in line with the promises made and the will of the public.

As aged pensioners we rely on our franking credits for income that would otherwise result as another burden on the age pension.

Yours sincerely,

Peter and Elizabeth Dewhirst
