

I disapprove, of the proposed changes to the dividend Franking Credit system , and strongly object to these changes. I am 68yrs old, self funded retiree, and so far have avoided going on the Age Pension. The few extra dollars, income, from these credits helps to make ends meet. Especially with the rate of inflation. If I loose this little bit of extra income, I will have no option , but to go on the Aged Pension. This will cost the country, far more than the money you will save on the abolition of Franking Credits. Yours Jeff Johnston.
