

Dear Officer In Charge

We object to the proposed legislation changes. The proposed changes borders on ludicrous and the fact that it tries to go back up to 2016 to retro the proposed changes showed incompetence of current government and its disregard of wellbeing of the people (esp those self funding retiree) of this nation.

If passed, this is the end of the Labour Government as it showed contempt to Australian people, those who worked hard for their lives and and aiming to rely on the government handout.

We wish to object and sincerely hope the Labour Government would consider carefully before attempting any changes as proposed.

Yours faithfully

Colin kwong
