

Director
Corporate Tax Policy Unit Treasury
Langton Cres
Parkes ACT 2600

Dear Director,

Thank you for the opportunity to submit a response to the consultation on the proposed legislation relating to Franked Distributions and Capital Raising. We object to the proposed legislation changes as we believe the draft legislation is inequitable to Australian companies and shareholders and it could inadvertently impact situations of legitimate company operations.

The draft legislation fails to recognise the fundamental principle underlying the franking regime and the reason for its creation, the avoidance of double taxation on company earnings.

The Franked Distribution and Capital Raising draft legislation, if widely applied, will lead to the demise of the franking system. It will stop Australian companies who issue new shares under a Dividend Reinvestment Plan (DRP) from paying franked dividends and significantly increase the cost of capital for all franked dividend paying Australian companies. It will also risk the stability and integrity of the Australian banking system by inhibiting effective capital raising during challenging economic periods such as the start of the coronavirus pandemic.

The Labor Party lost the previous election partially because of their proposed change to the franking credit system. This time, prior to the election, the Labor party leader stated that the Franking credit issues were "Off the agenda". Re-visiting the issue now destroys their much boasted integrity.

Apart from that, we are inherently opposed to ANY retrospective legislation as bad and unfair.

Yours sincerely,

Hartmut & Brenda P Meinecke
