Australian Office of Financial Management

Section 1: Entity overview and resources

1.1 Strategic direction statement

The Australian Office of Financial Management (AOFM) is responsible for managing Australian Government debt and certain financial assets. It issues Treasury Bonds, Treasury Indexed Bonds and Treasury Notes (collectively called Australian Government Securities), manages the government's cash balances and invests in financial assets as directed by government policy.

The government requires that the AOFM finance budget deficits and maturing debt in a cost-effective manner subject to acceptable risk; ensure government cash outlay requirements are always met; and conduct its financing operations in a way that supports a well-functioning Australian Government Securities market. The AOFM's main financing instrument is Treasury Bonds but Treasury Indexed Bonds and Treasury Notes also play a role.

The AOFM influences the cost structure of the debt portfolio chiefly through the maturity profile of Treasury Bonds that are issued. Issuance is undertaken according to an annual debt management strategy that aims to balance portfolio risks (such as future interest rate volatility and funding risks) and borrowing costs. Through its issuance and associated activities, the AOFM also aims to support domestic financial market integrity, stability and liquidity. The AOFM has lengthened the duration of its Treasury Bond portfolio over the last decade through longer term issuance, and by extending the yield curve. Most issuance is achieved using competitive tenders. Where appropriate, the AOFM also undertakes issuance through syndications (large volume point-in-time transactions using a 'book building' process conducted by a panel of banks appointed by the AOFM).

Between mid-2016 and early 2020 the AOFM conducted regular buy-backs of short-dated (up to 3 years) Treasury Bonds. This program aimed to reduce the size of bond lines ahead of their maturity dates; it was suspended in March 2020 when the RBA commenced its own large bond buying operations. The AOFM regularly reviews relevant market and financial system considerations to determine the appropriateness of restarting this program.

Issuing Treasury Indexed Bonds facilitates diversification of the investor base. It has a heavy domestic (Australian based) investor focus. The AOFM aims to issue sufficient volumes to meet demand, and to support the liquidity and functioning of the market.

As part of its sustainable financing agenda the Australian Government will introduce a Sovereign Green Bonds Program to drive Australia's net zero transformation and to boost the Australian green finance market. The AOFM will work with the Treasury and other relevant agencies with the aim of establishing a green bond framework and to launch the first green bond issue in mid-2024 with ongoing issuance thereafter. The AOFM will manage the issuance of green bonds.

The AOFM manages the government's cash balances to ensure it can meet all financial obligations when they fall due. Treasury Bonds and Treasury Indexed Bonds issuance tends to be at a relatively steady rate throughout the year. Therefore, fluctuations in the cash balances through the year are managed using deposits with the RBA and the issuance of Treasury Notes. Cash balance fluctuations arise from the difference in timing of revenue collections and outlays. The AOFM also maintains a 'cash buffer' to cover unforeseen circumstances, such as a large unanticipated change to forecasts or a temporary deterioration in financial market conditions that could impact the ability to issue Australian Government Securities at any time.

In April 2019 the then Government established the Australian Business Securitisation Fund. The Structured Finance Support Fund was established as part of the *Structured Finance Support (Coronavirus Economic Response Package) Bill 2020*, in response to the COVID-19 pandemic. The AOFM is responsible for the administration of both funds.

Australian Business Securitisation Fund

The Australian Business Securitisation Fund is a \$2 billion investment fund established by the *Australian Business Securitisation Fund Act 2019*. The policy aim is to enhance access to finance for small and medium-sized enterprises (SMEs) through targeted securitisation market investments. This will promote more competition between smaller lenders and the major banks and other lenders; and fill niche gaps in the lending market that are otherwise underserved in Australia.

While the securitisation market for residential mortgages in Australia is well developed, the Australian SME securitisation market is constrained by a lack of scale. Low volumes of capital raisings tend to deter potential investors from committing to the task of due diligence needed to enter the market. The Australian Business Securitisation Fund is used to invest in SME loan securitisations and over time this will help to establish a track record in lending against the type of collateral new to the securitisation market. It will also help SME lenders to obtain credit ratings and in turn promote broader investor interest.

Structured Finance Support Fund

This Fund provides for up to \$15 billion to facilitate continued access to funding markets by SME lenders impacted by the economic effects of the COVID-19 pandemic. In particular, smaller lenders were assessed as vulnerable to loss of access to funding from markets during the period of pandemic disruption. These smaller lenders did not have access to the RBA's term funding facility. The policy aim of the Structured Finance Support Fund has been achieved through targeted government investments in structured finance markets.

1.2 Entity resource statement

Table 1.1 shows total funding from all sources available to the entity for its operations and for delivery of programs and services on behalf of the government.

The table summarises how resources will be applied by outcome (government strategic policy objectives), and by administered (on behalf of the government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information is presented on a resourcing basis (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Australian Office of Financial Management resource statement – Budget estimates for 2023–24 as at Budget May 2023

	2022-23 <i>Estimated actual</i> \$'000	2023-24 Estimate \$'000
Departmental		
Annual appropriations - ordinary annual services (a)		
Prior year appropriations available	32,646	35,157
Departmental appropriation (b)	16,379	19,121
s74 External Revenue (c)	25	25
Departmental capital budget (d)	377	395
Total departmental annual appropriations	49,427	54,698
Total departmental resourcing	49,427	54,698
Administered		
Total administered special appropriations (e)	224,571,005	324,987,499
Special accounts (f)		
Opening balance	15,289,647	15,694,731
Appropriation receipts (g)	500,000	500,000
Non-appropriation receipts	561,956	482,499
Total special account receipts	16,351,603	16,677,230
Total administered resourcing	240,922,608	341,664,729
Total resourcing for AOFM	240,972,035	341,719,427
	2022-23	2023-24
Average staffing level (number)	46	56

All figures shown above are GST exclusive – these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

- a) Appropriation Bill (No. 1) 2023–24.
- b) Excludes Departmental Capital Budget (DCB).
- c) Estimated External Revenue receipts under section 74 of the PGPA Act.
- d) Departmental Capital Budgets are not separately identified in Appropriation Bill (No. 1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- e) Special Appropriations comprise funding to meet estimated operating expenditures such as interest on Australian Government Securities, investing expenditures such as acquisition of financial assets, and financing expenditures such as maturity of Australian Government Securities .
- f) The AOFM administers 3 special accounts – the Debt Retirement Reserve Trust Account (DRRTA), the ABSF Special Account and the SFSF Special Account. Figures include the ABSF and SFSF special accounts only. For further information on special accounts refer to *Budget Paper No. 4 – Agency Resourcing*. Table 2.1 has further information on outcome and program expenses broken down by various funding sources, that is, annual appropriations, special appropriations and special accounts.
- g) Comprises amounts credited to the ABSF Special Account under section 14 of the *Australian Business Securitisation Fund Act 2019*.

1.3 Budget measures

Budget measures relating to the AOFM are detailed in the Budget Paper No. 2 and are summarised below.

Table 1.2: Australian Office of Financial Management 2023–24 Budget measures

	Program	2022-23 \$'000	2023-24 \$'000	2024-25 \$'000	2025-26 \$'000	2026-27 \$'000
Payment measures						
Comprehensive Sustainable Finance Agenda (a)	1.1, 1.2					
Administered payment		-	-	2,460	-	-
Departmental payment		-	1,902	1,400	1,271	1,282
Total		-	1,902	3,860	1,271	1,282
Total payment measures						
Administered		-	-	2,460	-	-
Departmental		-	1,902	1,400	1,271	1,282
Total		-	1,902	3,860	1,271	1,282

Prepared on a Government Finance Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

- a) The lead entity for the measure titled Comprehensive Sustainable Finance Agenda is the Australian Securities and Investments Commission. The full measure description and package details appear in *Budget Paper No. 2, Budget Measures 2023–24*, under the Treasury portfolio.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve intended outcome statement results. Entities are required to identify programs which contribute to government outcomes over the Budget and forward years.

The AOFM's outcome is described below, together with related programs. Detailed information on expenses for each outcome and program are further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth Performance Framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance measure described in Portfolio Budget Statements will be read with broader information provided in an entity's Corporate Plans and annual performance statements – included in Annual Reports – to provide a complete picture of an entity's planned and actual performance.

The most recent Corporate Plan for AOFM can be found at:
(<https://www.aofm.gov.au/corporate-plan>).

The most recent annual performance statement can be found at:
(<https://aofm.gov.au/publications/annual-reports>).

2.1 Budgeted expenses and performance for Outcome 1

Outcome 1: The advancement of macroeconomic growth and stability, and the effective operation of financial markets, through issuing debt, and investing in financial assets and managing debt, investments and cash for the Australian Government.

Budgeted expenses for Outcome 1

Table 2.1.1 shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1.1: Budgeted expenses for Outcome 1

	2023-23 Estimated actual \$'000	2023-24 Budget \$'000	2024-25 Forward estimate \$'000	2025-26 Forward estimate \$'000	2026-27 Forward estimate \$'000
Program 1.1: Commonwealth Debt Management

Department total	14,516	19,206	16,739	16,831	17,088
Total expenses for program 1.2	14,516	19,206	16,739	16,831	17,088
Total expenses for Outcome 1	22,167,951	22,633,227	23,909,875	26,243,204	29,097,669
	2022-23	2023-24			
Average staffing level (number)	46	56			

a) Table 2.1.1: Budgeted expenses for Outcome 1 Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act.

b) Administered expenses not requiring appropriation comprises provision for bad and doubtful debts. Departmental expenses not requiring appropriation are made up of depreciation expenses, amortisation expenses and ANAO audit fees.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.1.2: Performance criteria for Outcome 1

Table 2.1.2 provides performance measures for each program associated with Outcome 1. It also provides related key activities as expressed in the current Corporate Plan. Further detail is also provided on: the delivery of the activities related to the program; the context in which these activities are delivered; and how activity performance will be measured.

Outcome 1 – The advancement of macroeconomic growth and stability, and the effective operation of financial markets, through issuing debt, investing in financial assets and managing debt, investments and cash for the Australian Government.		
Program 1.1 – Australian Office of Financial Management The AOFM issues Australian Government Securities debt, makes investments and manages debt and investments in accordance with policy objectives.		
Purpose 1.1.1: Meeting the government’s annual financing task while managing the trade-offs between cost and risks		
Key Activities	Establish a debt management strategy; execute the debt issuance program; settle transactions and coupon and redemption payments; monitor the costs and risks of the portfolio of assets and liabilities.	
Year	Performance measures	Expected performance results
Current year, Budget year and forward years	Annual debt management strategy: formulate an annual debt management strategy and advise the Secretary with supporting analysis.	Prior to start of fiscal year
	Term issuance: the shortfall in volume in dollar terms for the fiscal year between actual Treasury Bond issuance and planned issuance announced at the most recent official Budget related update.	Zero
	New issuance yields: the weighted average issue yield at Treasury Bond and Treasury Indexed Bond tenders compared to prevailing mid-market secondary yields.	At or below mid-market yields
	Tender coverage ratio: the average tender coverage ratio across all tenders for the fiscal year.	Greater than 2.5 times
	Settlement of Australian Government Securities transactions: number of times Australian Government Securities transactions fail to settle in a complete, timing and accurate manner where the AOFM is responsible for the failure.	Zero
	Settlement of Australian Government Securities coupons and redemptions: number of times Australian Government Securities coupon and redemption payments fail to occur in a complete, timing and accurate manner where the AOFM is responsible for the failure.	Zero
	Financing costs – issuance: the cost of Treasury Bond issuance in percentage terms over the past 12 months compared to the average 10-year bond rate over the same period.	Lower

Table 2.1.2: Performance criteria for Outcome 1 (continued)

Purpose 1.1.2: Ensure the government can always meet its cash outlay requirements		
Key Activities	Establish a liquidity management strategy; conduct the cash management task.	
Year	Performance measures	Expected performance results
Current year, Budget year and forward years	Annual liquidity management strategy: formulate an annual liquidity management strategy and advise the Secretary with supporting analysis.	Prior to start of fiscal year
	Use of overdraft facility: the number of instances the RBA overdraft facility was utilised.	Zero
Purpose 1.1.3: Conduct market facing activities in a manner that supports a well-functioning Australian Government Securities market		
Key Activities	Communicate AOFM operations clearly and consistently to the market; conduct a market engagement program; support financial market liquidity.	
Year	Performance measures	Expected performance results
Current year, Budget year and forward years	Market commitments: the number of times the AOFM failed to conduct issuance operations consistent with prior market announcements.	Zero
	Investor publications: number of times investor targeted information publications are updated and made available on the AOFM website.	At least twice a year
	Secondary market turnover: the annual turnover in dollar value terms in the secondary market for Treasury Bonds and Treasury Indexed Bonds in a fiscal year.	Greater than previous fiscal year
Purpose 1.1.4: Meet the priorities of the ABSF and SFSF		
Key Activities	Manage the ABSF program; manage the SFSF program	
Year	Performance measures	Expected performance results
Current year, Budget year and forward years	ABSF rate of return: the accrual earnings (net of losses) for a fiscal year divided by the average drawn (invested) amount in percentage point terms.	Greater than Bloomberg AusBond Treasury 0-1 year index
	SFSF losses: gross credit losses for a fiscal year divided by the average drawn amount in percentage point terms.	Zero

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements. These provide a comprehensive snapshot of entity finances for the 2023–24 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 Budgeted financial statements

3.1.1 Differences between entity resourcing and financial statements

Departmental

The comprehensive income statement (Table 3.1) includes resources received free of charge from the Australian National Audit Office for audit services. Departmental entity receipts as recorded in the entity resource statement (Table 1.1) exclude the estimated value of these services received free of charge.

The AOFM's estimated departmental expenses as shown in Table 2.1 are itemised in the departmental comprehensive income statement (Table 3.1).

Administered

The AOFM receives administered appropriations to meet operating expenditures and for capital expenditure purposes arising from managing the debt and asset portfolios. These are reflected in the entity resource statement (Table 1.1). The schedule of budgeted administered cash flows (Table 3.9) itemises these expenditures and classifies them into operating, investing, and financing activities.

The AOFM's estimated administered expenses as shown in Table 2.1 are itemised in the schedule of budgeted administered income and expenses (Table 3.7).

3.1.2 Explanatory notes and analysis of budgeted financial statements

Administered

The AOFM produces budget estimates of Australian Government Securities liabilities (debt) and certain financial assets. The projections of Australian Government Securities debt are a consequence of forecasts arising from the expenditure, investment and revenue decisions incorporated in the Budget. Annual debt servicing costs on Australian Government Securities debt are largely determined after taking into account changes in the volume of Australian Government Securities debt over the projection period, yields on existing debt and technical assumptions about yields on new debt to be issued over the projection period.

Estimated budgeting impacts of the ABSF and the SFSF are incorporated in the administered budgeted financial statements.

3.2 Budgeted financial statements tables

Table 3.1: Comprehensive income statement (showing net cost of services) for the period ended 30 June

Net Cash Operating Surplus/Deficit	2,460	500	-	-	-

Prepared on Australian Accounting Standards basis.

- a) In 2010-11, the Government introduced net cash appropriation arrangements. This means Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) are replaced with a separate capital budget (the Departmental Capital Budget (DCB)) provided through Bill 1 equity appropriations. For information regarding DCBs, refer to Table 3.5 Departmental Capital Budget Statement.
- b) Applies leases under AASB 16 Leases.
