Subject: Payday Super Consultation
Importance: High

Hello,

We hereby take the opportunity to comment on the Payday Super Consultation.

We are a Small Sized Enterprise as described in the Consultation Paper, or a Micro Business, with only 2 employees. Both employees are happy with this arrangement and do not seek to have super paid on their behalf every week when wages are paid. Super has been paid on time as required.

Paying Super quarterly is manageable for this size business, whereas **Payday Super Payments would increase the workload for super payments 13-fold**, which we believe is an unreasonable expectation.

We seek considerations for SME / Micro Businesses like ours to be exempt from this massive increase in administration / accounts, and thus to remain on the current quarterly arrangement.

Please add our input to the Consultation. Thank you.

Kind Regards,

Doris Buck
