Dear Committee

I think the requirement that resolutions on the notice of meeting must be determined by poll should be relaxed.

Most company resolutions are carried over-whelming. Requiring a poll adds to cost and delay with very little benefit, if any.

I think the law should revert to the previous position that the company can decide how it will conduct its meetings. One size does not fit all.

Please treat my comments as mine, not necessarily those of my firm.

Thank you.

Rodd
